

**CAIR**

**ANNUAL  
SCIENTIFIC  
MEETING  
2025**

PROGRAM

**May 22-24, 2025  
Halifax, Nova Scotia**

# LEARNING OBJECTIVES FOR THE MEETING

- ◆ Analyze the latest advancements and evidence-based practices in interventional radiology (IR), including updates in vascular, oncological, and musculoskeletal interventions.
- ◆ Discuss the technical nuances, procedural strategies, and innovations in IR treatments, with a focus on optimizing patient outcomes and minimizing complications.
- ◆ Evaluate the role of multidisciplinary collaboration in the management of complex cases, emphasizing the integration of IR within the broader healthcare team.
- ◆ Review and apply the principles of patient safety, quality improvement, and ethical considerations in the practice of interventional radiology.
- ◆ Identify strategies for addressing common challenges in IR, including difficult anatomical considerations, patient selection, and post-procedural care.
- ◆ Explore the impact of technological advancements, including imaging and device innovations, on the practice and outcomes of IR procedures.
- ◆ Discuss the management of specific conditions such as arteriovenous malformations (AVMs), hepatocellular carcinoma (HCC), and pulmonary embolism (PE), incorporating the latest guidelines and research findings.
- ◆ Examine the importance of professional development, wellness, and resilience in maintaining a sustainable and fulfilling career in interventional radiology.
- ◆ Analyze case studies and morbidity and mortality (M & M) cases to extract lessons learned and best practices for clinical decision-making and procedural execution.
- ◆ Engage in interactive learning sessions, including debates, panel discussions, and case reviews, to foster critical thinking and collaborative problem-solving in IR.

---

## CME Credits

The CAIR Annual Scientific Meeting 2025 is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification (MOC) program of the Royal College of Physicians and Surgeons of Canada (Royal College) and has been approved by the Canadian Association of Emergency Physicians (CAEP) for a maximum of 22 credit hours.

The Wellness Symposium event is an Accredited Self-Assessment Program (Section 3) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada, and approved by the Canadian Association of Emergency Physicians. You may claim a maximum of 2 hours (credits are automatically calculated).

Physicians should only claim credits commensurate with the extent of their participation in the activity.

## CAMRT Credits

This group learning activity will apply for Category A Credits within the Continuing Education Credit Approval Program (CECAP) of the Canadian Association of Medical Radiation Technologists (CAMRT).

## Target Audience

This CME event will be of great interest to Interventional Radiologists, Radiology Residents, Interventional Radiology Fellows as well as Technologists and Nurses working in Interventional Radiology and any other healthcare provider with an interest in Interventional Radiology.

## Needs Assessment

This program was developed based on feedback received from the evaluation forms collected during the SIR, CIRSE and CAIR Annual Meetings.

# PROGRAM

## THURSDAY, MAY 22

07:00 - 08:00  
Atlantic Ballroom,  
Mezzanine & Terrace

### Breakfast

08:00 - 08:55

### My Best and Worst Days in the Angio Suite: Lessons Learned in the Trenches

08:00 - 08:05  
Commonwealth  
Ballroom

### Welcome

Dr. Alessandra Cassano-Bailey | Dr. Gerald Gahide

#### At the end of this session, the participant will be able to:

- Describe the accomplishments of CAIR in the previous year
- Summarize the direction of the organization for 2025 and beyond
- Discuss how members can become more involved

08:05 - 08:20  
Commonwealth  
Ballroom

### Guest Speaker

Dr. Robert J. Lewandowski, SIR

#### At the end of this session, the participant will be able to:

- Recognize opportunities to take control of situations to avoid bad outcomes
- Create opportunities to guide care through creative solutions
- Identify learning opportunities from experiences and apply learning to practice

08:20 - 08:35  
Commonwealth  
Ballroom

### Guest Speaker

Dr. Philippe L. Pereira, CIRSE

#### At the end of this session, the participant will be able to:

- Identify chances to take proactive steps and prevent undesirable outcomes
- Develop innovative strategies to influence and improve patient care.
- Recognize learning moments from past experiences and incorporate those insights into practice

08:35 - 08:50  
Commonwealth  
Ballroom

### Guest Speaker

Dr. Valérie Monnin-Bares

#### At the end of this session, the participant will be able to:

- Identify errors in judgement that lead to patient complications
- Describe how to manage difficult cases in the endovascular suite
- Identify key decisions that allow for optimal patient outcome

08:50 - 08:55  
Commonwealth  
Ballroom

### Discussions

08:55 - 10:00

### Debates

08:55 - 09:15  
Commonwealth  
Ballroom

### ICE TIPS vs. REGULAR TIPS: Cooling Down the Best Approach

Dr. Richard Owen | Dr. Nevin De Korompay

#### At the end of this session, the participant will be able to:

- Compare the techniques of TIPS and ICE TIPS
- Analyze the suitability of each procedure based on patient characteristics
- Evaluate the potential complications and outcomes of TIPS and Ice TIPS

# PROGRAM

## THURSDAY, MAY 22 (CONTINUED)

09:15 - 09:35  
Commonwealth  
Ballroom

### Clot Wars: Mechanical Thrombectomy vs. Catheter-Directed Thrombolysis in Acute Arterial Ischemia

Dr. Alex Botsford | Dr. Tara Graham

At the end of this session, the participant will be able to:

- Describe the principles of thrombolysis and mechanical thrombectomy
- Discuss the advantages and challenges of each technique
- Evaluate the advantages and potential complications of each device

09:35 - 09:55  
Commonwealth  
Ballroom

### Sealing the Deal: Direct vs. Indirect Strategies for Type 2 Endoleak Control

Dr. Kong Teng Tan | Dr. Christopher Lightfoot

At the end of this session, the participant will be able to:

- Review the technical aspects of direct and indirect approaches for endoleak embolization
- Compare the respective advantages of both techniques
- Discuss the potential drawbacks of each approach

09:55 - 10:00  
Commonwealth  
Ballroom

### Discussions

10:00 - 10:30

### Break

10:30 - 11:45

### Clinical Interventional Radiology – DVT with Post-Thrombotic Syndrome

10:30 - 10:40  
Commonwealth  
Ballroom

### A Patient Perspective

Mr. Paul Doucette

At the end of this session, the participant will be able to:

- Review the difficulties faced by patients during the DVT with post-thrombotic syndrome phase
- List the approaches available to improve patient experience

10:40 - 10:55  
Commonwealth  
Ballroom

### Hematology Speaker

Dr. Erica Kelly

At the end of this session, the participant will be able to:

- Describe the multidisciplinary approach for the treatment of venous disease
- Know the respective roles of each team for the management of venous disease
- Discuss the specific role of hematology for the coordination of management

# PROGRAM

## THURSDAY, MAY 22 (CONTINUED)

10:55 - 11:10  
Commonwealth  
Ballroom

### Post-Thrombotic Syndrome: Assessment and Endovascular Management

Dr. Valérie Monnin-Bares

At the end of this session, the participant will be able to:

- Review the latest evidence for the management of post-thrombotic syndrome
- Offer a risk-adapted treatment and follow-up that contribute to a favorable outcome

11:10 - 11:15  
Commonwealth  
Ballroom

### Discussions

11:15 - 11:35  
Commonwealth  
Ballroom

### Taste of Grand Slams

Dr. Jason Wong | Dr. Adnan Hadziomerovic

At the end of this session, the participant will be able to:

- Discuss the technical nuances, procedural strategies, and innovations in IR treatments, with a focus on optimizing patient outcomes and minimizing complications
- Analyze case studies and morbidity and mortality (M & M) cases to extract lessons learned and best practices for clinical decision-making and procedural execution

11:35 - 11:55  
Commonwealth  
Ballroom

### Trainee Day – Best Cases

Dr. Anastasia Hadjivassiliou | Dr. Nevin de Korompay

At the end of this session, the participant will be able to:

- Identify strategies for addressing common challenges in IR, including difficult anatomical considerations, patient selection, and post-procedural care
- Discuss the technical nuances, procedural strategies, and innovations in IR treatments, with a focus on optimizing patient outcomes and minimizing complications

12:00 - 13:00

### Lunch Symposia

13:30 - 15:00

### Keynote Spotlight Series

13:30 - 13:50  
Commonwealth  
Ballroom

### IR Subspecialization

Dr. Robert J. Lewandowski

At the end of this session, the participant will be able to:

- Recognize the Unique Scope of Interventional Radiology
- Explain how establishing IR as a dedicated subspecialty improves patient outcomes
- Emphasize the Need for Formalized Training and Certification

13:50 - 14:10  
Commonwealth  
Ballroom

### Patient's Centered and Science Driven: IR Training in Europe and CIRSE Vision

Dr. Philippe L. Pereira

At the end of this session, the participant will be able to:

- Understand the Core Principles of Patient-Centered IR Practice
- Explore the CIRSE Vision for IR Education and Innovation
- Demonstrate how integrating research findings and evidence-based strategies into IR procedures enhances treatment efficacy

# PROGRAM

## THURSDAY, MAY 22 (CONTINUED)

14:10 - 14:15  
Commonwealth  
Ballroom

### **The French Connection: A National Approach on Venous Disease**

Dr. Valérie Monnin-Bares

**At the end of this session, the participant will be able to:**

- Understand the French National Framework for Venous Disease Management
- Evaluating the Impact of National Strategies on Patient Outcomes
- Explore Innovations in Venous Disease Treatment in France

14:15 - 14:35  
Commonwealth  
Ballroom

### **25 Years of CAIR: Photographic Retrospective**

14:35 - 14:40  
Commonwealth  
Ballroom

### **Discussions**

14:40 - 14:50  
Commonwealth  
Ballroom

### **CAIR Award: Dr. Robert Abraham**

14:50 - 15:00  
Commonwealth  
Ballroom

### **CAIR AGM**

15:00 - 15:30

### **Break**

15:30 - 16:30

### **Masterclass 1 (concurrent session)**

15:30 - 16:30  
Harbour Suites

### **Bridging the Gap: Strategies for Tackling Complex Aortoiliac Lesions**

Dr. Andrew Benko | Dr. Jeff Jaskolka

**At the end of this session, the participant will be able to:**

- Describe the different indications for aortoiliac revascularization
- Review the technical approaches available for aortoiliac recanalization
- Discuss how to preserve aortoiliac patency after its recanalization

15:30 - 16:30  
Elements

### **TIPS Unlocked: Secrets for Success**

Dr. Jason Wong | Dr. Arash Jaber

**At the end of this session, the participant will be able to:**

- Review the techniques and devices for performing TIPS
- Describe the indications and contraindications of TIPS
- Discuss the criteria for patient selection and the expected clinical outcomes

15:30 - 16:30  
Tradewinds

### **IR Fellowship Program Directors Meeting (by invitation only)**

Dr. Anastasia Hadjivassiliou

**At the end of this session, the participant will be able to:**

- Discuss the latest trends, challenges, and opportunities in IR fellowship training
- Explore strategies for enhancing the educational experience of IR fellows
- Facilitate collaboration and exchange of best practices among program directors to continuously improve the quality of IR fellowship training

18:00  
Atlantic Ballroom,  
Mezzanine & Terrace

### **Opening Reception & Networking**

# PROGRAM

## FRIDAY, MAY 23

08:00 - 09:00 **Masterclass 2** (concurrent session)

08:00 - 09:00 **Dialysis Accesses Demystified: Essential Tips and Tricks for Optimal Care**  
Harbour Suites Dr. Adnan Hadziomerovic | Dr. Mike Rivers-Bowerman

At the end of this session, the participant will be able to:

- Understand Dialysis Access Types
- Identify common complications and outline appropriate intervention strategies
- Implement Emergency Management Strategies

08:00 - 09:00 **Embolization: When to Use Mechanical Devices. Liquid Agents or Both**  
Elements Dr. Robert J. Lewandowski | Dr. Gilles Soulez

At the end of this session, the participant will be able to:

- Embolization: when to use mechanical devices, liquid agents or both
- Develop decision-making strategies to select the most effective embolization method
- Demonstrate proper deployment techniques for both mechanical and liquid embolization agents

08:00 - 09:00 **What You Need to Know When You Are Starting Your Practice**  
Tradewinds Dr. Alex Botsford | Dr. Cori Caughlin

At the end of this session, the participant will be able to:

- Identify key steps involved in establishing a successful medical practice
- Learn essential skills for building strong doctor-patient relationships
- Explore methods for developing professional connections

09:00 - 09:30 **Break**

09:30 - 10:30 **Liver Cancer Management**

09:30 - 09:45 **Y90 As Curative Intent**  
Commonwealth Ballroom Dr. Robert J. Lewandowski

At the end of this session, the participant will be able to:

- Review the principles of Y90
- Describe the expanding role of Y90 in the treatment of hepatic tumors
- Discuss the effectiveness Y90 in the treatment of hepatic tumors

09:45 - 10:00 **A European Prospective Study on TACE in Metastatic CRC**  
Commonwealth Ballroom Dr. Philippe L. Pereira

At the end of this session, the participant will be able to:

- Describe the objectives, methodology, and scope of the CIREL study
- Identify appropriate patient profiles for TACE treatment in metastatic CRC
- Evaluate the clinical outcomes, survival rates, and potential benefits demonstrated by the CIREL study in managing metastatic CRC Collaboration and innovation in HCC treatment

# PROGRAM

## FRIDAY, MAY 23 (CONTINUED)

10:00 - 10:15  
Commonwealth  
Ballroom

### Collaboration and Innovation in Liver Cancer Treatment

Dr. Robert Abraham | Dr. Daniel Boyd

At the end of this session, the participant will be able to:

- Understand the distinct stages required for the development of innovative interventional devices
- Establish a comprehensive methodology from laboratory testing to clinical application for crafting novel devices
- Pinpoint the primary challenges encountered in the process of creating cutting-edge devices

10:15 - 10:20  
Commonwealth  
Ballroom

### Award Presentation to Mickey MacDonald

10:20 - 10:30  
Commonwealth  
Ballroom

### Discussions

10:30 - 10:45

### Break

10:45 - 11:45

### Arterial Session

10:45 - 11:00  
Commonwealth  
Ballroom

### Deep Venous Arterialization: Breaking New Ground in Limb Salvage

Dr. Mathieu Beland

At the end of this session, the participant will be able to:

- Explain the clinical indications for deep venous arterialization
- Examine current data on the efficacy, success rates, and potential complications associated with DVA
- Discuss Future Directions and Innovations

11:00 - 11:15  
Commonwealth  
Ballroom

### Renal Denervation 2.0: The Comeback Kid in Hypertension Treatment

Dr. Andrew Benko

At the end of this session, the participant will be able to:

- Discuss the role of bone strengthening by cementoplasty in clinical practice
- Review the technical strategies required to perform cementoplasty
- Describe the outcomes and benefits of cementoplasty

11:15 - 11:30  
Commonwealth  
Ballroom

### Taming the Torn Aorta: Strategies for Post-Dissection Aneurysm Management

Dr. Kong Teng Tan

At the end of this session, the participant will be able to:

- Explain the structural changes that occur following aortic dissection, including remodeling patterns
- Identify criteria for patient selection and risk stratification
- Explore therapeutic options and decision-making strategies

11:30 - 11:45  
Commonwealth  
Ballroom

### Discussions

12:00 - 13:00

### Lunch Symposia

# PROGRAM

## FRIDAY, MAY 23 (CONTINUED)

13:30 - 14:10

### Embolization Unplugged

13:30 - 13:45  
Commonwealth  
Ballroom

#### Mastering Geniculate Artery Embolization: Tips for Precision and Success

Dr. Chris Wright

At the end of this session, the participant will be able to:

- Describe the physiopathology of osteoarthritis related pain and the potential role of embolization
- Review the different approaches of arterial embolization of chronic joint pain
- Understand the potential challenges of embolization and the techniques to overcome it

13:45 - 14:00  
Commonwealth  
Ballroom

#### Thyroid Embolization: Entering the Ring or Sitting on the Sidelines?

Dr. David Valenti

At the end of this session, the participant will be able to:

- Discuss the different approaches available to treat symptomatic thyroid lesions
- Compare the respective risks and benefits of the different approaches
- Know the tools and techniques available to embolize thyroid lesions

14:00 - 14:15  
Commonwealth  
Ballroom

#### Liquid Embolization: Mastering the Art of Making Magic Happen

Dr. Gilles Soulez

At the end of this session, the participant will be able to:

- Explain the physical properties, mechanisms of action, and behavior of liquid embolic agents
- Identify appropriate clinical scenarios for liquid embolization
- Learn the correct techniques for catheter positioning, flow control, and injection strategies to achieve optimal penetration while minimizing complications

14:15 - 14:25  
Commonwealth  
Ballroom

### Discussions

14:25 - 14:40

### Break

14:40 - 15:50

### Innovations in Interventional Oncology

14:40 - 15:00  
Commonwealth  
Ballroom

#### Place of TACE in HCC Guidelines

Dr. Philippe L. Pereira

At the end of this session, the participant will be able to:

- Review updated evidence for TACE in the treatment of HCC
- Compare the positioning of TACE in major HCC treatment guidelines
- Recognize Combination Strategies

# PROGRAM

## FRIDAY, MAY 23 (CONTINUED)

15:00 - 15:15  
Commonwealth  
Ballroom

### Prostate Ablation: My Step-by-Step Guide to Success

Dr. Tatiana Cabrera

At the end of this session, the participant will be able to:

- Explain the different modalities, including their effects on prostate tissue and tumor destruction
- Master imaging guidance techniques for precise targeting
- Evaluate treatment outcomes and ensure appropriate follow-up

15:15 - 15:30  
Commonwealth  
Ballroom

### RCC Under Fire: Y-90's Role in the Battle Against Cancer

Dr. Dereck Cool

At the end of this session, the participant will be able to:

- Understand the fundamental principles of Yttrium-90 in selective internal radiation therapy
- Identify specific indications and patient selection criteria for renal tumors
- Evaluate clinical outcomes and adapt treatment strategies

15:30 - 15:45  
Commonwealth  
Ballroom

### Thyroid Ablation: A Modern Approach to Targeted Care

Dr. Rebecca Hibbert

At the end of this session, the participant will be able to:

- Understand the indications and contraindications of thyroid thermoablation
- Prevent and manage potential complications
- Analyze the outcomes reported in scientific literature

15:45 - 16:00  
Commonwealth  
Ballroom

### Discussions

16:00 - 16:30

### Break

16:30 - 17:30

### Masterclass 3 – Jeopardy Film Panel, A bBrief History of Interventional Radiology

16:30 - 17:30  
Commonwealth  
Ballroom

Dr. Jason Wong | Dr. Nevin De Korompay | Dr. Stefan Przybojewski

At the end of this session, the participant will be able to:

- Review the milestones of IR history
- Describe important IR devices
- Test the IR knowledge in a Jeopardy Film Panel setting

18:00 - 19:00  
Atlantic Ballroom &  
Mezzanine

### Women in IR – Cocktails & Networking

# PROGRAM

## SATURDAY, MAY 24

08:00 - 09:00 **Wellness Symposium – SAM Session**

08:00 - 08:30  
Commonwealth  
Ballroom

**Mindful Self-Compassion**  
Dr. Jacqueline Milner

**At the end of this session, the participant will be able to:**

- Participants will gain a general understanding of what mindful self-compassion is and its underlying processes
- Participants will experience meditative practices to facilitate an embodied understanding of Mindful Self-Compassion
- Participants will learn practical applications and the potential benefits of practicing Mindful Self-Compassion for themselves and those they serve

08:30 - 08:50  
Commonwealth  
Ballroom

**The Calm Within: Medical Hypnosis for Stress and Serenity**  
Vicky Fortin

**At the end of this session, the participant will be able to:**

- Explain the neurological and psychological mechanisms behind hypnosis
- Demonstrate effective hypnosis induction methods
- Implement Hypnosis in Clinical Practice

08:50 - 09:00  
Commonwealth  
Ballroom

**Discussions**

09:00 - 09:15 **Break**

09:15 - 10:15 **Masterclass 4 (concurrent session)**

09:15 - 10:15  
Harbour Suites

**Prostate Artery Embolization Made Easy**  
Dr. Nevin De Korompay | Dr. Jason Wong

**At the end of this session, the participant will be able to:**

- Describe the rationale of arterial embolization for the treatment of prostate hypertrophy
- Review the arterial anatomy of the prostatic gland
- Discuss the clinical results and recommendations

09:15 - 10:15  
Elements

**Thermal Ablation Unlocked: Secrets to Sharpen Your Skills**  
Dr. Dereck Cool | Dr. Chris Wall

**At the end of this session, the participant will be able to:**

- Evaluate the different techniques of thermal ablation
- Explain the fundamental principles, strengths and limits of each technique
- Examine the possible limitations, complications, and the ways to circumvent it

# PROGRAM

## SATURDAY, MAY 24 (CONTINUED)

09:15 - 10:15  
Tradewinds

### From Errors to Excellence: Tech & Nurse M&M Insights

Dr. Alex Botsford | Dr. Cori Caughlin

At the end of this session, the participant will be able to:

- Identify Key Factors in Adverse Events
- Implement Best Practices for Patient Safety
- Strengthen Emergency Response Skills

10:15 - 10:30

### Break

10:30 - 12:00

### IR Pot Pourri

10:30 - 10:50  
Commonwealth  
Ballroom

### Top Interventional Oncology (IO) Papers of 2024

Dr. John Kachura

At the end of this session, the participant will be able to:

- Identify the latest evidence-based advances in interventional radiology, as presented in the top papers of 2024.
- List changes to the clinical practice to be made or maintained based on most current data presented
- Identify areas of further needed research and technical advancement in the field of IR

10:50 - 11:10  
Commonwealth  
Ballroom

### TAVI: 15 Years' Experience from an IR Perspective

Dr. Darren Ferguson

At the end of this session, the participant will be able to:

- Describe history of the TAVI technique
- Comment on treatment evolution throughout the years
- Know the different approaches to perform TAVI's

11:10 - 11:30  
Commonwealth  
Ballroom

### Pulmonary Embolism Thrombectomy: Last News from the Front

Dr. Alex Menard

At the end of this session, the participant will be able to:

- Describe the current role of pulmonary thrombectomy
- Review the new evidence, including benefits, risks and limitations
- Discuss the ongoing clinical trials about pulmonary thrombectomy

11:30 - 11:45  
Commonwealth  
Ballroom

### Discussions

11:45 - 12:00  
Commonwealth  
Ballroom

### Closing Remarks

Dr. Alessandra Cassano-Bailey | Dr. Gerald Gahide

# ONSITE INFORMATION

## REGISTRATION DESK HOURS

Tuesday May 20	16:00 – 18:00
Wednesday May 21	07:00 – 17:00
Thursday May 22	07:00 – 17:00
Friday May 23	07:00 – 17:00

## EXHIBIT HOURS

Thursday May 22	07:00 – 17:00
Friday May 23	07:00 – 17:00
Saturday May 24	07:00 – 12:00

## OPENING RECEPTION & NETWORKING

Thursday May 22 18:00 - 21:30  
Location: Atlantic Ballroom, Mezzanine & Terrace

## WOMEN IN IR - COCKTAILS & NETWORKING

Friday May 23 18:00 - 19:00  
Location: Atlantic Ballroom & Mezzanine

## EVALUATION FORM

In order to produce a successful meeting each year, the organizing committee needs your help. Please note that the sessions' evaluations and the general event survey are now available via the event app.

## PHOTO DISCLAIMER POLICY

Registration and attendance at, or participation in, the Canadian Association for Interventional Radiology (CAIR) meetings and other activities constitute an agreement by the registrant/attendee to CAIR's use and distribution (both now and in the future) of the registrant's or attendee's image or voice in photograph, videotapes, electronic reproductions and audio tapes ("images/recordings") of such events and activities. Registrant/attendee acknowledges and agrees that CAIR's use or distribution of such images/recordings may be worldwide and in any medium; that CAIR may identify registrants or attendees in such images or recordings; and that registrants/attendees have no right to any compensation for such uses.

## CAIR AWARD WINNER

**DR. ROBERT ABRAHAM**  
MD, FSIR, FCIRSE, FRCPC

Bob Abraham is a practicing clinician and Interventional Radiologist at the QEII Health Sciences Center at Dalhousie University in Halifax, NS. Dr. Abraham's skills and experience cover all aspects of Interventional Radiology (IR), including minimally invasive cancer therapy, angioplasty/intravascular stenting for peripheral vascular disease, endovascular aortic repair, arterial embolization, and venous interventions. He has held leadership positions in IR and Radiology having served as President of the Canadian Association for Interventional Radiology (CAIR) and as Chief Examiner for Diagnostic Radiology at the Royal College of Physicians and Surgeons. His research commitment and activity have resulted in over \$4 million in research & development funding, and he has embarked on a journey to translate biomaterial innovations into commercial products that will positively impact patient care. His passion for education and research has been rewarded with teaching and research awards and he has been awarded Fellowship to the Society of Interventional Radiology (SIR) and the Cardiovascular and Interventional Radiological Society of Europe (CIRSE).

# GUEST SPEAKERS

## **DR. ROBERT J. LEWANDOWSKI** MD, FSIR

### **SIR President**

Professor of Radiology, Medicine, and Surgery  
Director of Interventional Oncology  
Northwestern University Feinberg School of Medicine

Robert J Lewandowski, MD, FSIR, an interventional radiologist and professor at Northwestern Medicine Feinberg School of Medicine (Chicago) was named president of the Society of Interventional Radiology (SIR) during the SIR 2024 Annual Scientific Meeting in Salt Lake City.

## **PROF. DR. PHILIPPE L. PEREIRA** MD, PhD, EBIR, FCIRSE, EBIR-ES, FESGAR

### **Executive Board CIRSE, President**

Director  
Center of Radiology, Minimally Invasive Therapies and Nuclear Medicine  
SLK-Kliniken GmbH, Academic Hospital of Ruprecht-Karls-University, Heidelberg, D.

Chair of the 2022 and 2023 European Conference on Interventional Oncology (ECIO), Philippe L Pereira muses on the status of interventional oncology (IO) in 2021, following more than a year of disruption from the ongoing COVID-19 pandemic. Through his work on various European guidelines delineating cancer care pathways, he has been instrumental in shaping the discipline and flying the flag for IO within multidisciplinary working groups. "Most oncologists recognize the value of our minimally invasive therapies and know very well how to integrate our treatments into the therapeutic armamentarium that currently exists for cancer patients," he says

## **DR. VALÉRIE MONNIN-BARES** MD
